JOEY CHRISTIAN ARVESU

MICROSOFT 365 / CLOUD SUPPORT SPECIALIST | RMM EXPOSURE |
FULL-STACK DEVELOPMENT PROJECTS | COPILOT READINESS

+63 976 038 1120 | j.c.t.arvesu11@gmail.com | Bulacan / Metro Manila | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Microsoft 365 and cloud support specialist with hands-on experience in Microsoft 365 administration, Microsoft Entra ID, Exchange Online, SharePoint Online, licensing, identity and access, incident management, and CSP support workflows. Built and validated a non-production Microsoft 365 Copilot Readiness Lab using PowerShell, Microsoft Graph, Node.js, and evidence-based scoring to assess identity, licensing, governance, pilot deployment, and operations. Experienced in customer-facing troubleshooting, technical documentation, escalation coordination, and controlled remediation across managed-service environments.

CORE SKILLS

Microsoft 365	Microsoft 365 Admin Center, Microsoft Entra ID / Azure AD, Exchange Online, SharePoint Online, OneDrive, Teams, licensing, user lifecycle, permissions, CSP support
Copilot Readiness	Tenant readiness assessment, pilot planning, prerequisite validation, Microsoft Graph collection, PowerShell automation, licensing checks, controlled rollout, rollback and handoff documentation
Security & Governance	MFA and Conditional Access readiness, Microsoft Purview sensitivity labels, DLP investigation, access controls, SharePoint sharing and permission-risk review
Cloud & Automation	Azure administration, Azure Virtual Desktop deployment and troubleshooting, PowerShell, Microsoft Graph, REST APIs, Terraform exposure
Service Delivery	ServiceNow, Jira, Confluence, incident/request management, major-incident triage, customer communication, technical documentation, onboarding/offboarding
Development	JavaScript, Node.js, SQLite, HTML, CSS, responsive UI, API testing, Git/GitHub, local and Vercel deployment

SELECTED TECHNICAL PROJECTS

Microsoft 365 Copilot Readiness & Controlled Pilot Lab | Personal Solutions Engineering Project **2026**

- Built a local readiness-assessment system that collects read-only Microsoft 365 tenant evidence through PowerShell and Microsoft Graph, writes a point-in-time JSON snapshot, and evaluates readiness in a Node.js dashboard.
- Implemented a 100-point assessment across identity and access, licensing and pilot users, data governance, pilot deployment, and operations and adoption, with PASS, FAIL, and MANUAL evidence states.
- Created a Copilot-Pilot group for three test users; validated usage location and qualifying Microsoft 365 E5 Developer base licenses; identified the absence of an available Copilot SKU as a material rollout blocker.
- Investigated Microsoft Graph authentication, pagination, SKU detection, and SharePoint evidence limitations; changed the collector so unavailable evidence remains unresolved instead of becoming a false pass.
- Created Purview sensitivity-label pilot configuration and documented rollback, support ownership, audit validation, adoption baseline, change record, and incident-runbook evidence for a controlled rollout.

OrbitDesk AI Helpdesk Ticketing System | Personal Full-Stack Project **2026**

- Built and ran a full-stack service-desk application with Node.js, REST APIs, SQLite, server-side sessions, and role-based access for administrators, agents, and requesters.
- Implemented ticket creation, assignment, search and filtering, SLA tracking, workflow states, comments, internal notes, attachments, notifications, audit logging, and CSV export.

PROFESSIONAL EXPERIENCE

Cloud Solution Specialist / Microsoft 365 Analyst (MSP) | Insight Direct Philippines, Pasig City **Sep 2023 - Present**

- Administer Microsoft 365 tenants and Microsoft Entra ID under Cloud Solution Provider programs, including licensing, permissions, user lifecycle, and access management.
- Support Exchange Online and SharePoint Online administration and coordinate escalated Microsoft 365 and Azure issues with CSP partners and Microsoft support.
- Deploy and troubleshoot Azure Virtual Desktop environments and support cloud configuration and access issues.
- Use N-able N-central for device monitoring, system-health review, and remote troubleshooting.
- Research and document troubleshooting guidance for Microsoft 365 security, compliance, endpoint, Intune, and Purview-related customer cases.

PROFESSIONAL EXPERIENCE - CONTINUED

IT Service Desk Technician (L1.5-L2) | Insight Direct Philippines, Pasig City **Apr 2022 - Sep 2023**

- Provided phone, email, and chat support for hardware, software, network, identity, and application-access issues.
- Managed onboarding/offboarding, Microsoft 365 licenses, distribution lists, shared mailboxes, SharePoint access, Active Directory groups, AWS WorkSpaces, and domain access.
- Triaged major incidents, routed network issues to NOC teams, and served as an SME for new-hire training and ticket assignment.

IT Service Desk | Tech Mahindra Philippines, Quezon City **Aug 2021 - Apr 2022**

- Supported Windows, Microsoft Office / Microsoft 365, mobile work profiles, VPN, and general hardware/software issues through phone, email, and chat.
- Escalated incidents appropriately, converted service requests to incidents when required, and supported queue operations as an SME.

L2 Tech Support Engineer | Starbucks Philippines, Makati City **May 2019 - Sep 2020**

- Troubleshot and maintained POS systems, printers, workstations, servers, hubs, peripherals, and network equipment.

IT Support / POS Support | Saudi Marketing Company (Samco), Dammam, Saudi Arabia **Jul 2015 - Jan 2018**

- Installed, configured, maintained, and upgraded POS hardware/software; performed system audits and supported data integrity and user guidance across retail locations.

Information Security Analyst / Help Desk Analyst / PMO Analyst | Accenture, Mandaluyong City **Apr 2011 - May 2014**

- Monitored and investigated DLP alerts, supported incident response and documentation, resolved hardware/software issues, and assisted project planning and reporting.

CERTIFICATIONS & EDUCATION

Microsoft Certified:
Azure Fundamentals (AZ-900)
Microsoft 365 Fundamentals (MS-900)
Security, Compliance, and Identity Fundamentals (SC-900)

Bachelor of Science in Information Technology
Jose Rizal University | 2005 - 2009
